

Westerly Public Schools SUMMER READING PROGRAM 2021

Dear WPS K-12 Families and Students,

Summer is finally here! Personally, it is my favorite time of the year, because it is when I can finally relax and read a book of choice on the beach. The K-12 summer reading committees at each level worked hard to put together a summer reading program to motivate our students to do the same. Reading for pleasure is our first hope for you, but we also want you to avoid the summer slide and achieve some incentives along the way.

For families who are seeking additional literacy summer activities above and beyond the district's and public library's summer reading program, we put together free resources for you to view or print at home. For students entering grades 1-6, information on how to continue to [access Lexia.com at home over](#) the summer is provided. A summer reading BINGO board is included for all entering K-4 families who want additional ideas to keep their child(ren) engaged in reading. These resources and activities are encouraged, but all are optional and provided for practice at home.

Go below to link to the school/grade level you are entering to find specific details about our 2021 summer reading program and resources. Enjoy your summer and READ, READ, READ!

Sincerely,
Carmela Sammataro
ELA District Coordinator

ALL Students:

[Entering Kindergarten thru Grade 4 Students](#)

[Entering Grades 5 thru 8 Students](#)

[Entering Grades 9 thru 12 Students](#)
