# Find the slope of each line.

Find the slope of each line.

1)
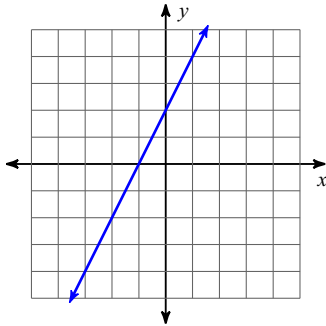

2)

3)
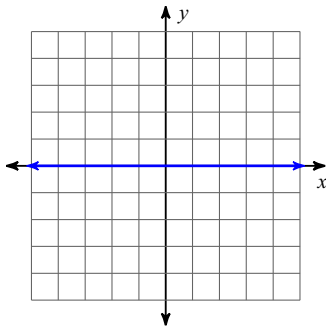

4)
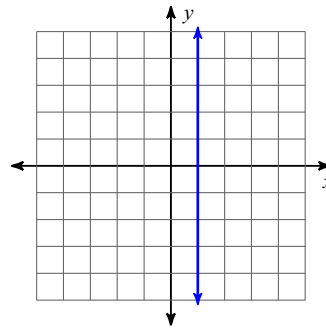

5)

6)

7)

8)

9) Draw a line with slope = 2/3 and passes through the point (2,5)

10) Draw a line with slope = -2 and passes through the point (3,1)

11) Draw a line with slope = -1/4 and passes through the point (2,0)

12) Draw a line with slope = 0 and passes through the point (5,2)
