

B107 Requirements - Punch Home & Landscape Design

Include all five of the items below:

- The walls of the room are sized accurately.
- The door includes a glass pane and opens correctly. The door has a lever handle for hardware.
- Furniture (chairs and desks) is added. It is sized (width, depth, and height) and colored accurately using Custom Workshop. Computer desks are in three foot sections.
- Computers have flat panel monitors and are colored accurately. They should include horizontal computer desktops below the flat panel monitors.
- Lights are added and sized correctly. Lights have a steel hanging string.

Choose **ONE** of the following options to add to your room:

- At least four electrical outlets are included and placed in accurate locations.
- Shelving is placed on the back wall for storage.
- Storage closets are added to the entry of the room.
- Bulletin and white boards are added to the front of the room.
