

## Grades 6-8 | Discussion Questions

### Digital Life 101

- The video explains that before the Internet and cell phones, we consumed media, but now we create and share media. What are some of the ways you participate by creating and sharing through apps and the Internet?
- Think of someone around your age who creates awesome content online. What is so impressive about his or her work?
- Why is Wikipedia an example of creating and sharing through the Internet? Have you ever shared your knowledge with others through a website?
- What are some ways you use the Internet related to your hobbies or interests? What would be different about your experience if you couldn't access the Internet?
- If you could give one piece of advice to younger kids about using the Internet or their cell phones, what would it be?
