

Assignment 1			
	IBM Laptop Computer Sales		
	Rhode Island	Massachusetts	Connecticut
Thinkpad 220	418679	272522	175000
Thinkpad 350	337102	227150	130808
Thinkpad 390	239312	143400	119500
Thinkpad 500	46325	10390	24615

Directions:

Create a column and row that gives totals for each model and state.

Format all numbers for currency with 0 decimal places.

Create a pie chart using only each model and their total sales. (Hint - use control key)

Use the second pie chart sub-type (3-D in top row).

Title of chart is Sales by Model.

Show legend and place at bottom of chart.

Show value for data labels.

Place chart as an object in Sheet 1.

Make the following changes:

Move legend to the right of the pie chart.

Change data label to percent

Change Rhode Island Thinkpad 220 sales to \$380,216.

Change Connecticut Thinkpad 390 sales to \$139,620.

Change title to Laptop Sales by Model.

Title should be in 16 pt and italicized.

Color background of Chart Area light grey.

Center your name and Laptop Chart in the header.

Save as LaptopPie.
